Beautiful Countries

I am Chinese. My friend comes from Japan. I would like to compare Hong Kong's cuisines, languages and costumes with my friend's country because I like different cultures.

The cuisines of my friend's country are the same as Hong Kong. For example, they both eat tofu, but their tofu is more delicious. The language of my friend's country is different than in Hong Kong. For example, Japanese and Cantonese are different. The costumes of my friend's country are different than in Hong Kong. For example, kimono and Chinese tunic suit are different. Kimono are beautiful.

I would like to visit my friend's country because the costumes are beautiful, language is very strange and cuisines are yummy.
