

My favourite country – Japan

Summer Chung

I love to travel to Tokyo, the capital city of Japan because there are much fresh food, lots of beautiful fashions, shoes, etc.

In Japan, I can find my favourite types of food, like sushi, sashimi, Japanese curry, tempura food, and many kinds of fresh vegetables. There are also many choice of sweets and snacks. They are the same as the snacks in Hong Kong.

Japanese usually dress in kimonos on the important days, like graduation, weddings, New Year's Day, funerals, etc. The clothes in Hong Kong and in Japan are different.

Japanese language is different from Hong Kong. In Hong Kong, we speak Cantonese, English and Putonghua. Japanese people usually speak Japanese and a little English. Japan also have different festivals from our festivals in Hong Kong. They have Doll Festival, the Emperor's Birthday, etc. We don't have such festivals.

Japan is a really good place to travel. They have a very good railway transport system. We can travel from one city to another easily. This may be why Hong Kong people love traveling to Japan three or four times a year!
