A friend from China

My friend comes from China. I would like to compare Hong Kong's cuisines, costumes and languages with my friend's country because the cuisines are delicious, the costumes are colourful and the languages are interesting.

The cuisine of my friend's country is the same as in Hong Kong. For example, the Pakistani curry and Chinese curry are the same. The costume of my friend's country is different than in Hong Kong. For example, the shalwar kameez and cheongsam are different. The language of my friend's country is also different than in Hong Kong. For example, Urdu and Cantonese are different.

I would like to visit my friend's country because I have never been to China and I want to see the scenic spots in China.
