

Good habits leads to good results

Amina 6A

Yesterday my teacher told us that we have to prepare for the examination so we ought to pay attention in class and not to be lazy.

In the playground, we studied hard together. We formed a study group. We could help one another and keep our friendship.

At home, I have stayed up late after midnight. The next day, I was really tired and sleepy. I have got no energy at all during the exam. I fell asleep in the middle of the exam. My teacher saw that. He was angry. He gave me a big lecture after the exam.

I learnt that I should not go to bed too late so that I would not sleep in the school. This is so embarrassing.
